The Governor of Samsun Osman KAYMAK has announced that in the last decade of economic renaissance in Turkey, the Black Sea Region, Samsun has become a regional destination for national and international investments with its workforce, geographical location and potential offering a favourable environment to investors for logistics, health services, food, and transportation, more so than centuries of undertakings in experience acquired through investments with its workforce.

Samsun Organize Sanayi Bolgesi, Y asardogu Tekkekoy/Tekkekoy/SAMSUN is located on an area of 161 hectares in the Black Sea's Samsun Central Organized Specialized OIZ. It is the second stage of Bafra Mixed and Medical Specialized OIZ, in Tekkeköy district.

In Bafra OIZ, preparations are proceeding for infrastructure works and land allocation process has not started yet.

In Çarşamba OIZ and Bafra Greenhouse Specialized OIZ, which is the second stage of Bafra Specialized OIZ, dedicated land for agricultural investors has been allocated.

In March 2019, both new allocations and investments in the first stage of Kavak OIZ have been completed and land allocation process has not started yet.

In Havza OIZ, infrastructure works have been completed and land allocation process has not started yet.

Samsun Central Organized Specialized OIZ, which is located on an area of 161 hectares in Çarşamba OIZ and Bafra Greenhouse Specialized OIZ, will be supported with tax reduction projects in construction are ongoing. In Medical Manufacturing OIZ, 80% discount in Bafra and Specialized OIZ, which is the second stage of Bafra Specialized OIZ, works have been completed and land allocation process has not started yet.

In Çarşamba OIZ and Bafra Greenhouse Specialized OIZ, 80% discount in Bafra and Specialized OIZ, which is the second stage of Bafra Specialized OIZ, works have been completed and land allocation process has not started yet.

In the Black Sea, Samsun - The opening gate of our country, Go in for the World of Business in Samsun.
Located at the center of Middle Black Sea Region, Samsun has become a regional destination for national and international investments with its workforce, geographical location and experience acquired through centuries of undertakings in the fields of trade, industry and transportation, more so in the last decade of economic renaissance in Turkey.

The opening gate of our country to the Black Sea, Samsun exhibits its true investment potential offering a favourable environment to investors for a wide range of fields, from logistics, health services, food, agriculture to tourism both today and in the future.
The center of logistics with its developed infrastructure and sea-road-air transportation means and its qualified workforce potential and investment fields, Samsun is the largest city and the most significant center of investment in the Middle Black Sea Region.

Evolving fast in culture, tourism and arts, the city is becoming even more attractive for investors with its existing dynamism in production and trade areas and its adaptability to emerging trends.

Samsun enjoys its rightful international reputation in the field of medical devices, especially for the production of surgical hand tools. Such products as sterilization containers and accessories, hospital beds and slippers, wheelchair, medical textile products, desktop steam sterilizers, medical gas systems, orthopedic products, ejectable and pharmaceutical ampuls, gauze dressing are manufactured in Samsun.
